## LORRIES DRIVING ON TO THE FERRY.

This is a picture of lorries driving on to the ferry to take them across to the islands.  
This is how most of our supplies get to us.  
The ferry is very old and often breaks down.  
Sometimes it can get stormy on the trip.

Can you write a story about a ferry trip across to the islands ?

Here are some words that you may like to use.

cargo engine journey choppy calm 'run out of fuel'

passengers captain supplies vehicles landing sinking

rescue night crew lifeboat 'all fine in the end'
